TROUBLE IS EXPECTED

Eight Hundred Policemen Held in Reserve Because of Strike.

RAILROADS REFUSE COMPROMISE.

Faint Hope of Settlement of the Freight Handlers' Strike Is Dashed by the Stern Reply of the Employers.

Chicago, July 16.—The faint hope of settlement of the freight handlers' strike entertained before noon was dashed shortly after noon, when President Curran received word that the Northwestern, the Erie and the Santa Fe roads had refused to entertain the compromise proposed in petitions presented by committees of the strikers. The Northwestern, the Wabash and the Wisconsin Central roads told the committees to return later in the day. It was believed the delay was wanted in order that conferences might be held with the other roads. The Erie and Santa Fe managements told the men they would accept no other settlement than that proposed July 1. This is a stiffer stand than they have made any time since the date named.

Fearing trouble about eight hundred policemen were held in reserve at downtown stations or at the railroad warehouses in anticipation of a possible attempt to raise the embargo on freight occasioned by the freight handlers' strike, and the sympathetic walkout of the teamsters.

The situation was regarded as even more serious than Monday, as the failure of conferences was believed to mean that the merchants, who are suffering over a million dollars loss every day of the strike, would assume a determined attitude.

Houses in different lines of business, but especially those handling perishable goods, declare their intention of manning their trucks and attempting to take freight from the warehouses of the railroads. After the meeting of the teamsters after midnight, when it was arranged that the freight handlers should make the last proposition to the managers, the merchants changed their plans of action, the first thing to wait the result of the conference. The men were instructed, among other things, to demand 17½ cents an hour for truckers, and on this point the railroads have taken a decided stand. Secretary Driscoll of the Team Owners' association is quoted as stating that eight of the railroads were willing to pay 17½ cents, but there would remain 18 still pledged to pay no more than 17 cents.

The extra large force of reserve men on hand at police stations was a reflection of the feeling that any hour was liable to bring forth trouble.

Said one wholesaler: "We are waiting the result of the conferences. Should they fail as the others have failed, then it will be a fight to the finish. We have got to do business even if the militia has to be called out. A few hours will tell the story."

Others expressed themselves in a similar vein. One man said that the fight would be to completely crush the teamsters' union. This union, he said, had broken its contract made only a few weeks ago, and as it could not be relied on to keep a contract nothing remained but to crush it if it persisted in staying out in violation of its agreement.

The full membership of the state board of arbitration, headed by President Job, held a meeting, at which it was planned to resume active efforts toward conciliation, as directed by Governor Yates.

A continuance of the strike threatens to tie up building operations in the city. Several cars of brick were on the tracks, where they have been for some time. The supply comes in day by day, and it is said that the present supply will last only a little time, possibly not more than 24 hours.

Business Agent Hanks of the brick-makers' union declared that should the freight handlers continue to refuse permission to move brick from the freight yards between ten and twenty thousand building men would be out of work within a week.

By noon the good effects of the presence of President Young of the teamsters' union in the city was apparent. Through the efforts of Mr. Young the teamsters working for South Water street commission firms were persuaded to carry perishable freight from the "straight" cars. By "straight" cars is meant cars containing one kind of freight only, and consigned to one firm. The objection of the teamsters to handling freight touched by the nonunion men now in the warehouses was overcome by having the teamsters taking the freight

direct from the cars themselves. In this way perishable goods reached the street during the forenoon, and the situation was partially relieved. Many cars of vegetables and fruit, however, still remain in the railroad sheds, as the teamsters will not touch it after the nonunion warehousemen have once handled it.

Another result of Mr. Young's efforts was to consider the plan to man the teams with their owners in an attempt to move caravans under police protection in and out of the freight yards. At the meeting of commission merchants this plan was held in abeyance, pending the success of Mr. Young's efforts. A little ordinary merchandise, it is said, was also handled by the teamsters direct. Pockets of the freight handlers did not interfere. They knew from the determined tone of the meeting over which Mr. Young presided that interference would alienate the sympathy of the drivers, on whose steadfastness their success admittedly relies.

Hibbard, Spencer, Bartlett & Company, hardware wholesalers, posted a notice that unless the strike was settled they will lay off a large part of their force. The firm employs 1,000 men.

A committee was appointed to visit President Young and ask him what would be his attitude should negotiations fail. He said to them in answer:

"I will order all the men to go to the barns and do all work assigned to them, including the hauling of freight. I will order them to live up to their agreements. I will not, however, ask them to work if physical violence threatens them."

Should the strike not be settled and the teamsters attempt to carry out Mr. Young's orders, it is believed violence would almost certainly result. President Curran of the freight handlers' union was in a determined mood. His anger over the action of the teamsters' officers and the accusations of breach of faith charged against him had not cooled.

Opposed to General Strike.

Louisville, July 16.—J. D. Wood, president of the United Mine Workers of Kentucky, and a member of the executive board of the national organization, passed through this city on his way to Indianapolis to attend the miners' convention Thursday, when the question of calling a general strike in the bituminous region will be decided. Mr. Wood stated that he, together with the entire Kentucky delegation, was unalterably opposed to a general strike being ordered, as it would necessitate a breaking of contracts between the miners and their employers, and would do the national organization irreparable damage. Mr. Wood has written to President Mitchell giving the views of the Kentucky delegation, and will make a strong fight in the convention against a general suspension of operations.

ABOUT TUBERCULOSIS.

Many Die Because Physicians Lack Moral Courage.

New York, July 16.—Thousands, tens of thousands of people die because their physicians have not the moral courage to say to them: "This is tuberculosis, and now is the time to take precautions."

Such was the statement made by Medical Officer Riggs of the health department, in an address before the summer school in philanthropic work, conducted by the charity organizations society.

"In the case of autopsies in New York hospitals, which have come under my knowledge," he continued, "fully 60 per cent had had, some time in their lives, tuberculosis. Of these a little more than half had died of that disease. The remainder had recovered, and in many instances had not known of its existence in their systems. A third of those who die in our hospitals die of consumption. In one of the older cities of Europe the proportion is much greater."

"The tubercular bacilli do not multiply outside the system. They tend to die. Infection by the original bacillus is rare. Large numbers are quickly destroyed. Direct sunlight destroys them quickly, daylight in time. The danger is in damp, dark rooms."

"Tuberculosis is an absolutely preventable disease. It is not only preventable, but curable. It is simply a question of how early a diagnosis is made. If it can be made at the beginning, 8 per cent at least of the cases are curable if placed in a pure atmosphere."

Philadelphia, July 16.—Fire destroyed the 4-story brick foundry building owned by Josiah Thompson & Company in the northwestern section of the city. Valuable patterns and machinery were rendered useless, the loss being estimated at \$100,000, partly insured.

REMAINS OF MERRILL

Body of Convict Who Escaped With Tracy Found in the Forest.

KILLED BY HIS PAL IN UNFAIR DUEL.

Desperado Tracy's Story About Murdering His Companion in the Woods Is Believed to Be Substantiated.

Seattle, Wash., July 16.—A special from Chehalis, says: "The body of David Merrill, who escaped from the Oregon penitentiary with Harry Tracy on June 9, has been found. A bullet wound in the back reveals the nature of his death and substantiates the story told by Tracy about the duel in the forest. The remains were in a somewhat advanced stage of decomposition, but were still recognizable. The last time that Merrill was seen in camp with Tracy was on June 26, in Tumwater canyon, when both escaped their pursuers. Later Tracy told that he had killed his comrade unfairly in a duel."

Schwab's Answer.

Newark, N. J., July 16.—The answer of the United States Steel corporation to the suit designed to prevent the \$200,000,000 bond conversion plan brought by J. Aspinwall Hodge, William H. Curtis and Bernard Smith was filed. The suit is based on the contention that the corporation's assets do not equal the amount of its preferred stock, and that therefore it cannot proceed as intended, under the act of 1902. The answer, which is supported by an affidavit of Charles M. Schwab, states assets will amount to the entire stock, bonds, commons and preferred, or more than \$1,400,000,000. Mr. Schwab, in his affidavit, maintains that his position is such as to give him knowledge of the actual worth of the property and lists his estimates of their value. He says among other things that the earnings of the corporation in the 15 months of its existence have been in excess of 10 per cent of the entire capital stock.

A Bid From America.

Johannesburg, Transvaal, July 16.—At a meeting of the chamber of commerce, called to receive the British trade commissioners, a member read a cablegram, which he had received, offering freight from New York to Natal at 10 shillings per ton. Other members of the chamber said they had received similar offers. This rate is 21s 3d below the lowest freight rate from England. The merchants do not see how the Americans are able to offer such low rates. Nevertheless they are overhauling their stock to see what they can order in the United States.

Wisconsin Republicans.

Madison, Wis., July 16.—Everything is in readiness for the Republican state convention, which meets here. Candidates for various places on the ticket were active throughout the day receiving their friends at their headquarters at the Park hotel. The university gymnasium, where the convention is to be held, has been fitted up with chairs for seating about 3000 persons. Of this number 1065 will be delegates. Judge Levi H. Bancroft of Richmond Center will be temporary chairman of the convention.

Wein Returns.

Pittsburg, July 16.—Jacob Wein of the Austro-Hungarian consulate has returned from Johnstown, where he went to look after the interests of the families bereaved by the disaster at the rolling mill mine. Mr. Wein said that no decision would be reached concerning suits against the Cambria Steel company until the same for the accident had been placed by the coroner's jury.

Tracy Doubles His Tracks.

Auburn, Wash., July 16.—Tracy, the escaped Oregon convict, has again doubled on his tracks. He was seen on a road near the Muckleshoot reservation by an Indian boy. He was also seen by Henry O'Neill, a rancher, at the same time. While Tracy was stealing by roads and trails back from Enumelcaw, the bloodhound brigade was on a stampede to Palmer Junction.

New York, July 16.—Beginning on Sept. 1 the price of electric light throughout the city will be reduced one-fourth. This announcement is made in a circular to patrons of the two companies, which practically control the electric light business in the city. It is expected the reduction will increase the use of electricity many fold, as then it will be nearly as cheap as gas.

SUDDEN DROP.

Bulls in the Corn Pit Are Stampeded by Bears.

Chicago, July 16.—Corn speculators were stampeded immediately upon the opening of the board of trade. Bears had the whip hand and drove the bulls from the support of the so-called July corner so sharply that prices of July corn broke 10 cents in the first hour of trading. Such action of the yellow cereal, after having reached the fancy price of 90 cents less than a fortnight ago caused all sorts of gossip, the principal tone of which was that the Gates crowd had been beaten, and the much-feared corner was broken. All natural conditions and influences favored lower prices when the opening gong started uneasiness on the floor of the exchange. July corn could not withstand 827 cars of arrivals that showed on the inspection sheets. The price dropped from 80 to 70 cents. The total break is 20 cents.

July slumped steadily but without much excitement after the first big break. The bulls explained their neglect of the July options by saying that prices were too high to take care of the big receipts of cash stuff. July broke to 65½ cents, and closed 15 cents lower at 65¼ cents. This was a drop of 20½ cents in two days.

July Corner Ended.

Chicago, July 16.—General Manager Scotten of the Harris-Gates company made a statement that shortly before the closing hour a settlement was made with shorts in July corn, and that his firm had no further interest in supporting prices. This virtually ends the July corner.

Wholesale Grocers Combine.

Chicago, July 16.—A combination of wholesale groceries, organized substantially along the lines advocated by James B. Forgan, for the consolidation of country banks, has been effected by Chicago capitalists. Incorporation papers for the combine will be filed in New Jersey. The new company will begin operations with a capitalization of \$5,000,000, of which \$3,500,000 already has been subscribed. Harlow N. Higginbottom is president of the corporation, which will be known as the National Grocer company. The national concern will gain control of the largest houses in Illinois, outside of Chicago, Indiana, Ohio, Missouri and Michigan. The national and western grocer companies are not to be merged, but retaining separate organizations, will have a close working arrangement.

Callaway Stabbed.

Lexington, Mo., July 16.—Joseph Callaway, aged 62, a member of Quantrell's band during the civil war, was stabbed and fatally wounded on the ferry boat here by Doc Johnson, who escaped, but was captured by a posse, after being surrounded in the woods for several hours. Hugh Callaway, aged 35, and Johnson had quarreled over a dice game. Callaway, having stabbed four times, but not fatally. Later, when the elder Callaway came upon the scene, he was attacked by Johnson without provocation, and disembowled.

England's Educational Display.

St. Louis, July 16.—Michael S. Sadler, director of inquiries and reports of the British educational department, and the representative of the English educational exhibits at the World's fair, has informed Howard Rogers, chief of the exposition's department of education, that the display contemplated by the British empire will include a summary of English education, and also of Scotland and Ireland and the colonies.

Pauncetote Memorial.

London, July 16.—Memorial services for Lord Pauncetote, the late ambassador of Great Britain at Washington, were held in the Chapel Royal, St. James palace. All the members of the American embassy and many members of the government were present. King Edward was represented by Lord Churchill, the acting Lord Chamberlain. The Prince of Wales and the Duke of Connaught attended in person.

Injunction Denied.

St. Paul, July 16.—United States Circuit Judge Sanborn denied the injunction asked by Mrs. Laura Tesson against the Louisiana Purchase Exposition company to prevent the condemnation of her property for exposition purposes.

Tallahassee, Fla., July 16.—

The Democratic state and county primaries for state officers, congressmen and United States senator were held throughout Florida. The various counties held their primaries for members of the legislature and county officers. Hon. S. R. Mallory of Pensacola, now serving his first term as United States senator, and the Hon. William Call, former United States senator, are candidates.

BIG ST. BERNARD DOG.

Viciously Attacks the Little Girl of Congressman Wachter.

HEROIC EFFORTS OF THE FATHER.

Upon Hearing the Cries of His Child, the Maryland Statesman Rescues Her After a Desperate Fight With the Canine.

Baltimore, July 16.—Congressman Frank C. Wachter was badly bitten in both hands while heroically endeavoring to defend his little daughter, Hattie, from the attacks of a large St. Bernard dog. The daughter was also badly bitten. Mrs. Wachter, who witnessed the onslaught, is completely prostrated by a nervous shock.

The encounter happened in the yard of Mr. Wachter's home. Hattie was playing with the animal, when suddenly the dog uttered a fierce growl and sprang upon the child, fastening its teeth in her arm. The little girl was thrown to the ground by the heavy animal, which stood over her, snarling.

Mr. Wachter, who was in the house at the time, heard his daughter's screams and rushed in to the yard. Seeing her peril, he seized the animal by the collar and tried to drag it away from her. The dog turned upon Mr. Wachter and a desperate struggle followed.

Mr. Wachter is a strong man, but the dog is an unusually large specimen, being nearly three feet in height, and only with the greatest difficulty Mr. Wachter succeeded in pulling it off his daughter's prostrate form. The girl then ran into the house, while Mr. Wachter was compelled to defend himself from the attacks of the infuriated beast. Finally he succeeded in hurling the beast from him and made a quick dash for the door to the house, shutting out the brute.

Cortelyou Leaves Oyster Bay

Oyster Bay, N. Y., July 16.—President Roosevelt passed a quiet day at his Sagamore Hill home. An incident of the afternoon was a reception and tea given on the official yacht Mayflower by Mrs. Roosevelt to the members of the Saint Hilda branch of the ladies' auxiliary of Christ Episcopal church. Shortly after noon Secretary Cortelyou left for Washington. He expects to be absent from Oyster Bay for a month. While in Washington he will complete arrangements with the local committees of various cities the president will visit on his New England and northwestern trip and with the railroad companies. He also will adjust and pay all bills transacted in connection with the assassination of President McKinley, including those of the surgeons who attended him. A bulk amount of \$45,000 was appropriated recently by congress.

Death of Mrs. Leland.

New York, July 16.—News has been received here of the death of Mrs. Charles Godfrey Leland of Florence, Italy. Mrs. Leland was stricken with paralysis at Florence, where she and her husband, author of many widely known works, had resided for several years. Mrs. Leland, in her younger days, was pronounced by William M. Thackeray to be "the prettiest woman in America." She was the daughter of the late Rodney Fisher and great grand niece of Caesar Rodney of Delaware, one of the signers of the Declaration of Independence.

Golf Championship.

Glenview Golf Course, Golf, Ill., July 15.—N. R. Roberts of the Springfield Golf club and Allen Hibbard of Milwaukee drove from the first tee of the Glenview course, formally opening the annual contest for the amateur golf championship. At intervals of six minutes thereafter players were sent out in pairs over the course, but it was late before the last aspirants for championship honors were called to play.

Two Drowned.

Chicago, July 16.—Two persons perished in the lake and eight others fought for hours for life, clinging to the overturned yacht Arab IV, owned by John H. Cameron, cashier of the National Bank of the Republic. The yacht struck suddenly by the fierce storm which rushed over the city, capsized. The boat is a 21-footer and one of the best known yachts in the harbor. The dead are Mary Taylor, 16, and Harry Jensen, 17.

New York, July 16.—John Willis Baer, secretary of the Christian Endeavor society, has resigned that position to accept one as assistant secretary of the presbytery board of home missions. He will take up his new duties on Oct. 1.

THERE is a widespread conviction in the minds of the American people that the great corporations known as the trusts are in certain of their features and tendencies hurtful to the general welfare. Therefore the nation should assume power of supervision and regulation over all corporations doing an inter-State business.—President Roosevelt's message to Congress.

Congress, though strongly Republican, refused to heed President Roosevelt's suggestion and pass a law to curb the trusts. The people are more firmly convinced now than ever before that the combines are "hurtful to the general welfare," and they will no doubt give emphatic expression to that conviction in November.

DR. FRAZEE FOR COMMISSIONER OF AGRICULTURE.

Announcement was made some weeks ago of the candidacy of Dr. J. M. Frazee of this city for State Commissioner of Agriculture. He was a candidate for this position four years ago, and made a remarkably strong race, in view of the fact that it was the first time he was ever before the people of Kentucky as an aspirant for a State office. He was defeated for the nomination in that campaign by a narrow margin, and his many friends here and elsewhere throughout Kentucky are confident he will make even a stronger race now than he did four years ago.

Dr. Frazee has spent his life in one of the finest agricultural communities in the State, is thoroughly conversant with the farming interests and needs, and is, therefore, eminently qualified, in an especial manner, for the position he seeks. This fact was recognized in the last campaign, and accounts for the splendid race he then made. Dr. Frazee will make a vigorous and thorough canvass of the State, and his hosts of friends here and elsewhere throughout Kentucky will take great pleasure in helping him win his fight.

A Strong Plea For the "Moonshiner."

[By Dr. T. C. Minor of the Lancet-Clinic.]
 F. Hopkinson Smith's pictures of the trials and tribulations of Kentucky moonshiners are not exaggerated, but true to the life, if we are to believe the statements of those whose veracity we have never had reason to question. It is not popular to proclaim that there are distinctions in the law as drawn between the so-called masses and classes, between poverty and wealth. There is no law or so-called justice that has not, waiting on its dockets for trial, the cases of those whose poverty is their only crime, men and women whom the law will undoubtedly acquit, in many instances, sooner or later. When the slow machinery is ready to grind the grist into a criminal or a sadly wronged innocent with no means to right his or her wrongs. Persons of means can secure learned and talented attorneys to give them some show of personal liberty until the time of their trials are reached and they shall be proven innocent or guilty, but for the unfortunate "moonshiner," the mountaineer who has had the temerity to convert his own grain into delectable whiskey, perhaps for his own use, or perhaps, too often, for the purpose of selling it to neighbors, the crime is rank and the offense "smells to high heaven." Often, a trust magnate, a defaulting cashier, even a murderer, if wealthy, can secure means to insure personal liberty often pending trial, even with the consent of his majesty, The Law, and his minions, the officers of the court.

The moonshiner from the mountains, not being a magnate, usually with one suit of clothes to his back and no money, not even a pound of ginseng as a contingent fee, is left immured in a prison cell, often poorly fed, in badly ventilated quarters, waiting for months—a prisoner, until such a time as the majesty of the law is vindicated or the victim acquitted. One might suggest, perhaps, that more courts and judges, more able-bodied persons with keen intellects, drawn to convict all infractions of the laws, might, perhaps, expedite matters and inflict less injury on those who, though poor and under arrest, may possibly be found innocent afterward.

OUR FAITH

In the wise buying of Maysville's alert women prompted us to accept a line of exquisite DuBarry Silks offered at a remarkable price concession owing to the lateness of the season. We handled the same line early this spring—in this consignment there are a few of the identical patterns we bought then. Of course, as up-to-date women you know fashion assures a revival this fall of fancy silks in DuBarry and Pompadour designs—we might more correctly say, a continuance, as the approval of style was stamped on all fancy silks this spring.

If your summer wardrobe is complete it will certainly pay you to invest in one of these exquisite silk dress patterns for future use.

There are many colors in both strong and pastel shades with a flower strewn surface or in geometrical designs, the whole finished with high luster. The price is three-fifths the original cost—

A few days ago William Potter, of Letcher County, sold his farm of 500 acres on Elkhorn creek to Louisville capitalists for \$30 an acre cash. John C. Mayo of Paintsville claims to have taken an option on the farm six months ago at \$5 an acre, and has filed suit to enforce it. The farm involved has over 450 acres of the finest timber in Eastern Kentucky, there being hundreds of mammoth walnut trees on it. The immense coal bank of the mountains is situated on this farm. The band is fourteen feet thick and is estimated to contain enough coal to run the whole population of Kentucky for half a century. Thousands of dollars will be spent in the prosecution, as the value of the property is so great.

Baking Powder... Truth!

If all the chemists in the world should get together they could devise no baking powder better than that made from pure cream of tartar and bicarbonate of soda. Few baking powders are thus made, yet every maker knows they should be. It is simply desire for big profit that leads to use of inferior ingredients.

CHENOWETH'S BAKING POWDER

is an absolutely pure cream tartar and soda powder. It is not possible to produce anything better, yet we supply it at 35 cents per pound. You get it at this fair price because we make it. There is but one small profit to pay.

GOOD COOKS NOTE THIS: A certificate that you have bought a pound of Chenoweth's Baking Powder entitles you to compete for prizes amounting to \$12 at the Germantown fair and Elks fair, Maysville.

The More--The Less

In a few days the carpenters will commence hammering and tearing down walls in our second floor and their main cry will be room, more room, and the more room they will need the less goods we must have. We must reduce our stock and price shall be the propeller that will drive our bargains with tremendous speed.

Some Rebuilding Reduction Prices:

LAWNS, LAWNS—8½c. Lawns for 5c.; 10 and 12½c. Lawns for 8½c.; 15 to 25c. Lawns for 10c. Still choice patterns in these lots.

SHIRT WAIST SPECIAL—We may still have your size in those \$1.25 to \$2 Shirt Waists at 79c. Of course they are the "Royal" which is the synonym of Shirt Waists that fit.

UMBRELLAS—Judging from the way we have been selling those \$2 to \$3 Umbrellas for \$1.39, everybody will be prepared for a heavy rain.

RIBBONS, EMBROIDERIES—Twenty per cent. reduction on all Ribbons and Embroideries.

A GOOD TIME TO BUY A Woolen Dress and a good time to save 20 per cent.

CARPETS AND MATTINGS—Great reductions in this department. This is the space the carpenters need most.

Our remaining Hats are marked with an "unremaining" price.

The total number of loaded packages of coal and steel that has passed through the canal at Louisville on this rise was 425, of which sixty-seven were steel. This breaks the record on midsummer runs of commerce and places 1902 in the lead of any years of record in point of river business. These packages were of from 900 to 2,500 tons each.

Sunday School Institute at Orangeburg. State Evangelist Robert M. Hopkins will conduct a Sunday school institute at Orangeburg Christian Church July 17th, 18th, 19th and 20th, to which the public are cordially invited. Admission free. The service begins each evening at 7:30 o'clock. His talks will be illustrated with stereopticon views and moving pictures, and will prove highly interesting and instructive. The institute will close Sunday evening with an address on "The Man of Gallilee." Mr. Hopkins, in addition to being an interesting speaker, is a fine singer and all should hear him.

A NATIVE OF MASON.

Death Claims Dr. B. F. Stevenson. Past Surgeon General of the National G. A. R.

[Cincinnati Times-Star.]

Dr. Benjamin F. Stevenson, whose death occurred Monday, was one of the noted men of letters in this section of the country. His famous book, "Letters From the Army," has been read with much interest by members of the G. A. R. in all parts of the country and was a graphic description of many scenes and incidents of a thrilling nature of the late Civil war.

Dr. Stevenson was a warm personal friend of the late Lieut. Gov. W. J. Worthington, of Kentucky. He was born in Mason County, Ky., on June 11, 1811, and was a life member of Garfield Post, G. A. R., in Covington. He was Past Surgeon General of the National G. A. R. He joined that organization on February 23, 1886, and was one of the most enthusiastic and energetic members of it for many years. Dr. Stevenson was well and favorably known as a medical practitioner and began his practice in Cincinnati in 1867. During the Civil war he served with distinction under Col. Warner. He was at one time Assistant Surgeon of the Twenty-first Kentucky Infantry and later Surgeon of the Twenty-second Kentucky Infantry. He had a wide acquaintance throughout Ohio and Kentucky and his death will be greatly deplored. Dr. Stevenson left three daughters, Mrs. Katherine Lewis, and the Misses Julia and Cora Stevenson. For some time past Dr. Stevenson, who was in his ninety-first year, had made his home at Norwood.

Public Attention.

The leading clothier, E. A. Winterfeldt, of Mt. Olivet, has come into this community to open a branch store of clothing, furnishing goods, hats, caps, trunks, valises, etc., at prices which will astonish the people. We come to stay among you and assure you honest dealing or no sale. Give us a show to convince you and you will see that we can undersell Maysville at any time. Our expenses are so much smaller we can afford to undersell. Call at the John Walton building, next to hotel, Mayslick, and look over our line. Inspection free of charge. Mr. E. L. Barnes, manager, will be glad to wait on you. Had opening Saturday, July 5th, 1902. Mayslick, Kentucky.

Collis, the two-year-old son of Mr. "Button" Chamberlain, of Beard's Station, Oldham County, was either kicked or run over by a horse some days ago, and had one of his arms and shoulders fractured. The child had to be taken to Dr. Vance, of Louisville, to have the fractures set. Mr. Chamberlain is a brother of Mr. John L. Chamberlain and Mrs. Frank Purnell, and formerly lived in this county.

John Willis Baer, National Secretary of the Christian Endeavor Society, has resigned that position to accept one as Assistant Secretary of the Presbyterian Board of Home Missions. He will take up his new duties March 1, next.

Circus men are grumbling over the law passed by the Kentucky Legislature making the license for a circus \$1 for each 100 voters for each performance in the county where the show is given. Each side show, where separate admissions are charged, must pay half as much. The circus men say they will cut Kentucky out of their routes.

William Doniphan Frazee, a native of Mason County, died recently at the home of his son in Moosa, San Diego County, Cal. He was born at Mayslick, April 9, 1822. One daughter and two sons survive him. He was a successful minister of the Christian Church, and was the author of several books, his last and best work being "Reminiscences and Sermons," which has passed through five editions. He leaves many relatives in this city and county.

CROP OUTLOOK.

Conditions in Kentucky Generally Favorable—Very Little Rain Last Week. Fine Prospect for Corn.

[Weekly Bulletin Weather Bureau July 16th.]

The first half of the week was very warm, but the latter part quite cool. In a few of the northern counties along the Ohio river from Owensboro to Maysville fairly good showers occurred, but very little rain fell in other portions of the State. The need of rain is beginning to be felt in some localities in the southwestern counties. Crops of all kinds made good progress during the week and farm work advanced rapidly.

Wheat threshing shows a slightly better yield than was expected, probably a little more than half a crop, of good quality.

Corn is in splendid condition, and, with favorable conditions in the future, should make one of the largest crops produced in several years.

Tobacco is starting off rather slowly, especially in the dark tobacco counties in the west; in the burley districts it is doing considerably better. The acreage is decidedly less than usual.

Oats are being harvested and a good crop is reported. Irish potatoes are very promising. The hay crop in the central and eastern counties is better than expected.

Hemp is making good growth. Sorghum is looking especially well. Gardens are generally in fine condition. Pastures have improved.

Apples are dropping badly and will be a very poor crop. The peach crop will be almost a failure. Blackberries are very scarce.

In some localities chinch bugs are becoming quite numerous, and are damaging corn to some extent.

Dr. J. A. Lynn, one of the oldest physicians of Robertson County, died at his home in Bridgeville, Saturday.

A repetition of the sale of the Hickey farm transpired Wednesday afternoon according to advertisement, the object being to recover \$1,400, the amount of indebtedness against the estate. Mr. James Hickey, late of Pueblo, being the present incumbent as a result from the will of his deceased mother, covered the indebtedness by bidding the amount immediately when the opportunity presented itself. He then peremptorily and emphatically forbade any further continuance of the sale of the property notwithstanding the reiterated orders of Commissioner C. B. Taylor that his instructions were to dispose of it to the highest bidder. Mr. Hickey stated that he had covered the indebtedness and was ready to

execute bond, and what more did they want. Quite an exciting controversy took place between the interested parties, but Mr. Hickey gained his point and was very particular not to leave the premises, which are occupied by Mrs. Tolle, until vacated also by Mr. Taylor.

Nature has just one pigment on her palette with which she produces all the marvelous tints of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the iridescent brilliance of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and cosmetics won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eyes and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging residuum, which accumulates with constipated habit.
